## 2012-2016 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Tell us what you think. Provide feedback to help make American Community Survey data more useful for you.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Grays Harbor County, Washington			
	Estimate	Margin of Error	Percent	Percent Margin of Error
EMPLOYMENT STATUS				
Population 16 years and over	57,943	+/-160	57,943	(X)
In labor force	30,259	+/-714	52.2%	+/-1.3
Civilian labor force	30,189	+/-725	52.1%	+/-1.3
Employed	26,525	+/-686	45.8%	+/-1.2
Unemployed	3,664	+/-445	6.3%	+/-0.8
Armed Forces	70	+/-59	0.1%	+/-0.1
Not in labor force	27,684	+/-744	47.8%	+/-1.3
Civilian labor force	30,189	+/-725	30,189	(X)
Unemployment Rate	(X)	(X)	12.1%	+/-1.4
Females 16 years and over	28,048	+/-123	28,048	(X)
In labor force	14,248	+/-523	50.8%	+/-1.9
Civilian labor force	14,218	+/-536	50.7%	+/-2.0
Employed	12,858	+/-552	45.8%	+/-2.0
Own children of the householder under 6 years	4,507	+/-244	4,507	(X)
All parents in family in labor force	3,185	+/-317	70.7%	+/-5.4
Own children of the householder 6 to 17 years	9,296	+/-324	9,296	(X)
All parents in family in labor force	6,965	+/-433	74.9%	+/-3.6
COMMUTING TO WORK				
Workers 16 years and over	25,938	+/-684	25,938	(X)
Car, truck, or van drove alone	19,984	+/-674	77.0%	+/-1.8
Car, truck, or van carpooled	3,250	+/-391	12.5%	+/-1.4
Public transportation (excluding taxicab)	380	+/-155	1.5%	+/-0.6
Walked	508	+/-148	2.0%	+/-0.6
Other means	458	+/-132	1.8%	+/-0.5
Worked at home	1,358	+/-297	5.2%	+/-1.1

Subject	Grays Harbor County, Washington				
	Estimate	Margin of Error	Percent	Percent Margin of Error	
Mean travel time to work (minutes)	24.8	+/-1.0	(X)	Error (X	
OCCUPATION					
Civilian employed population 16 years and over	26,525	+/-686	26,525	(X	
Management, business, science, and arts occupations	7,030	+/-505	26.5%	+/-1.8	
Service occupations	6,421	+/-592	24.2%	+/-2.0	
Sales and office occupations	6,154	+/-422	23.2%	+/-1.4	
Natural resources, construction, and maintenance	3,072	+/-373	11.6%	+/-1.4	
Production, transportation, and material moving occupations	3,848	+/-376	14.5%	+/-1.5	
NDUSTRY					
Civilian employed population 16 years and over	26,525	+/-686	26,525	(X	
Agriculture, forestry, fishing and hunting, and mining	1,352	+/-244	5.1%	+/-0.9

People in families	(X)	(X)	12.2%	+/-1.5
Unrelated individuals 15 years and over	(X)	(X)	32.2%	+/-2.8

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2013 and later years are based on the 2012 revision of the NAICS. To allow for the creation of 2012-2016 tables, industry data in the multiyear files (2012-2016) were recoded to 2013 Census industry codes. We recommend using caution when comparing data coded using 2013 Census industry codes with data coded using Census industry codes prior to 2013. For more information on the Census industry code changes, please visit our website at https://www.census.gov/people/io/methodology/.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage\_edits\_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html. The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par\_textimage\_18 for a list of the insurance type definitions.

While the 2012-2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

## Explanation of Symbols:

- 1. An '\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
- 2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
  - 3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
  - 4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- 5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
  - 6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
- 7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
  - 8. An '(X)' means that the estimate is not applicable or not available.
