

**Mortgage Status by Age of Householder,  
Grays Harbor County  
2012 - 2016 ACS Five Year Estimate**

*Compiled by Grays Harbor Council of Governments*

| Grays Harbor County                      |          |              |
|--|----------|--------------|
|  | Estimate | MOE<br>+ / - |
| Total Estimated Housing Units:           | 18,430   | +/-526       |
| <i>Housing units with a mortgage:</i>    | 10,710   | +/-559       |
| Householder 15 to 34 years               | 922      | +/-176       |
| Householder 35 to 44 years               | 1,805    | +/-242       |
| Householder 45 to 54 years               | 2,390    | +/-262       |
| Householder 55 to 59 years               | 1,701    | +/-217       |
| Householder 60 to 64 years               | 1,360    | +/-256       |
| Householder 65 to 74 years               | 1,914    | +/-233       |
| Householder 75 years and over            | 618      | +/-116       |
| <i>Housing units without a mortgage:</i> | 7,720    | +/-471       |
| Householder 15 to 34 years               | 173      | +/-91        |
| Householder 35 to 44 years               | 483      | +/-168       |
| Householder 45 to 54 years               | 866      | +/-196       |
| Householder 55 to 59 years               | 825      | +/-169       |
| Householder 60 to 64 years               | 1,208    | +/-200       |
| Householder 65 to 74 years               | 2,154    | +/-258       |
| Householder 75 years and over            | 2,011    | +/-196       |

**Note:** MOE = margin of error

Data are based on a sample and are subject to sampling variability. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data).
