

# East Aberdeen Mobility Project Community Open House #1

---

## **Please join us....**

The Grays Harbor Council of Governments (GHCOC) invites you to attend an open house to learn about traffic and safety improvements being evaluated for the US-12 highway corridor in and around the vicinity of Gateway Plaza.

The open house is scheduled for:

**Tuesday, October 14, 5:00-7:00 PM,  
Port of Grays Harbor Commission Chamber  
111 S. Wooding Street, Aberdeen**

Staff and consultants will be on-hand to present potential alternatives, answer questions and note any concerns or insights you may have with respect to any preliminary proposals.

## **About the Project**

The need for the East Aberdeen Mobility Project was initially identified in the *US 101 Regional Circulation Project* completed in 2007. The project is funded through a federal grant and local match is provided by the Port of Grays Harbor. The goal of the project is to reduce or eliminate traffic disruption caused by lengthy train delays, and to generally improve traffic flow, access, and safety throughout the corridor.

For more information, please visit [www.ghcog.org](http://www.ghcog.org) and click on the project fact sheet.

For questions, please contact Vicki Cummings, GHCOC, at 360-537-4386.
