

## East Aberdeen Mobility Project Community Open House #2

---

### **Please join us....**

The Grays Harbor Council of Governments (GHCOG) invites you to attend a second open house to learn about the alternative selected for traffic and safety improvements in the US-12 highway corridor, in and around the vicinity of Gateway Plaza.

The open house is scheduled for:

**Wednesday, December 17<sup>th</sup>, 5:00-7:00 PM**  
**Rotary Log Pavilion**  
**1401 Sargent Blvd., Aberdeen**

Staff and consultants will be on-hand to present the alternative recommended for further action, answer questions, and note any comments you may have at multiple project “information stations”.

### **About the Project**

The need for the East Aberdeen Mobility Project was initially identified in the *US 101 Regional Circulation Project* completed in 2007. The project is funded through a federal grant and local match is provided by the Port of Grays Harbor. The goal of the project is to reduce or eliminate traffic disruption caused by lengthy train delays, and to generally improve traffic flow, access and safety throughout the corridor.
